Performance Driven Software

Capital Quant Agency, is an independent and innovative Fintech. Our smart decision-making software can help our clients make better informed decisions, increase efficiency as well as revenue through maximization of transparency, automation and connectivity.

Streamline Workflows and Decisions

#1 AUTOMATION AND TRANSPARENCY

Our software solution can enable users to make more informed decisions, increase efficiency as well as revenue by maximizing transparency, automation and instant connectivity to markets and its data.

#3 COST-EFFECTIVE

Our innovative software is cost effective because it does not require expensive investments in hardware or infrastructure. This can make it an attractive option for smaller asset management companies.

#2 RISK MANAGEMENT

Our smart decision-making tools allow users to manage and monitor in real time through a single fully integrated software, in a perspective to improve their operations and meet their requirements.

#4 COLLABORATION AND COMMUNICATION

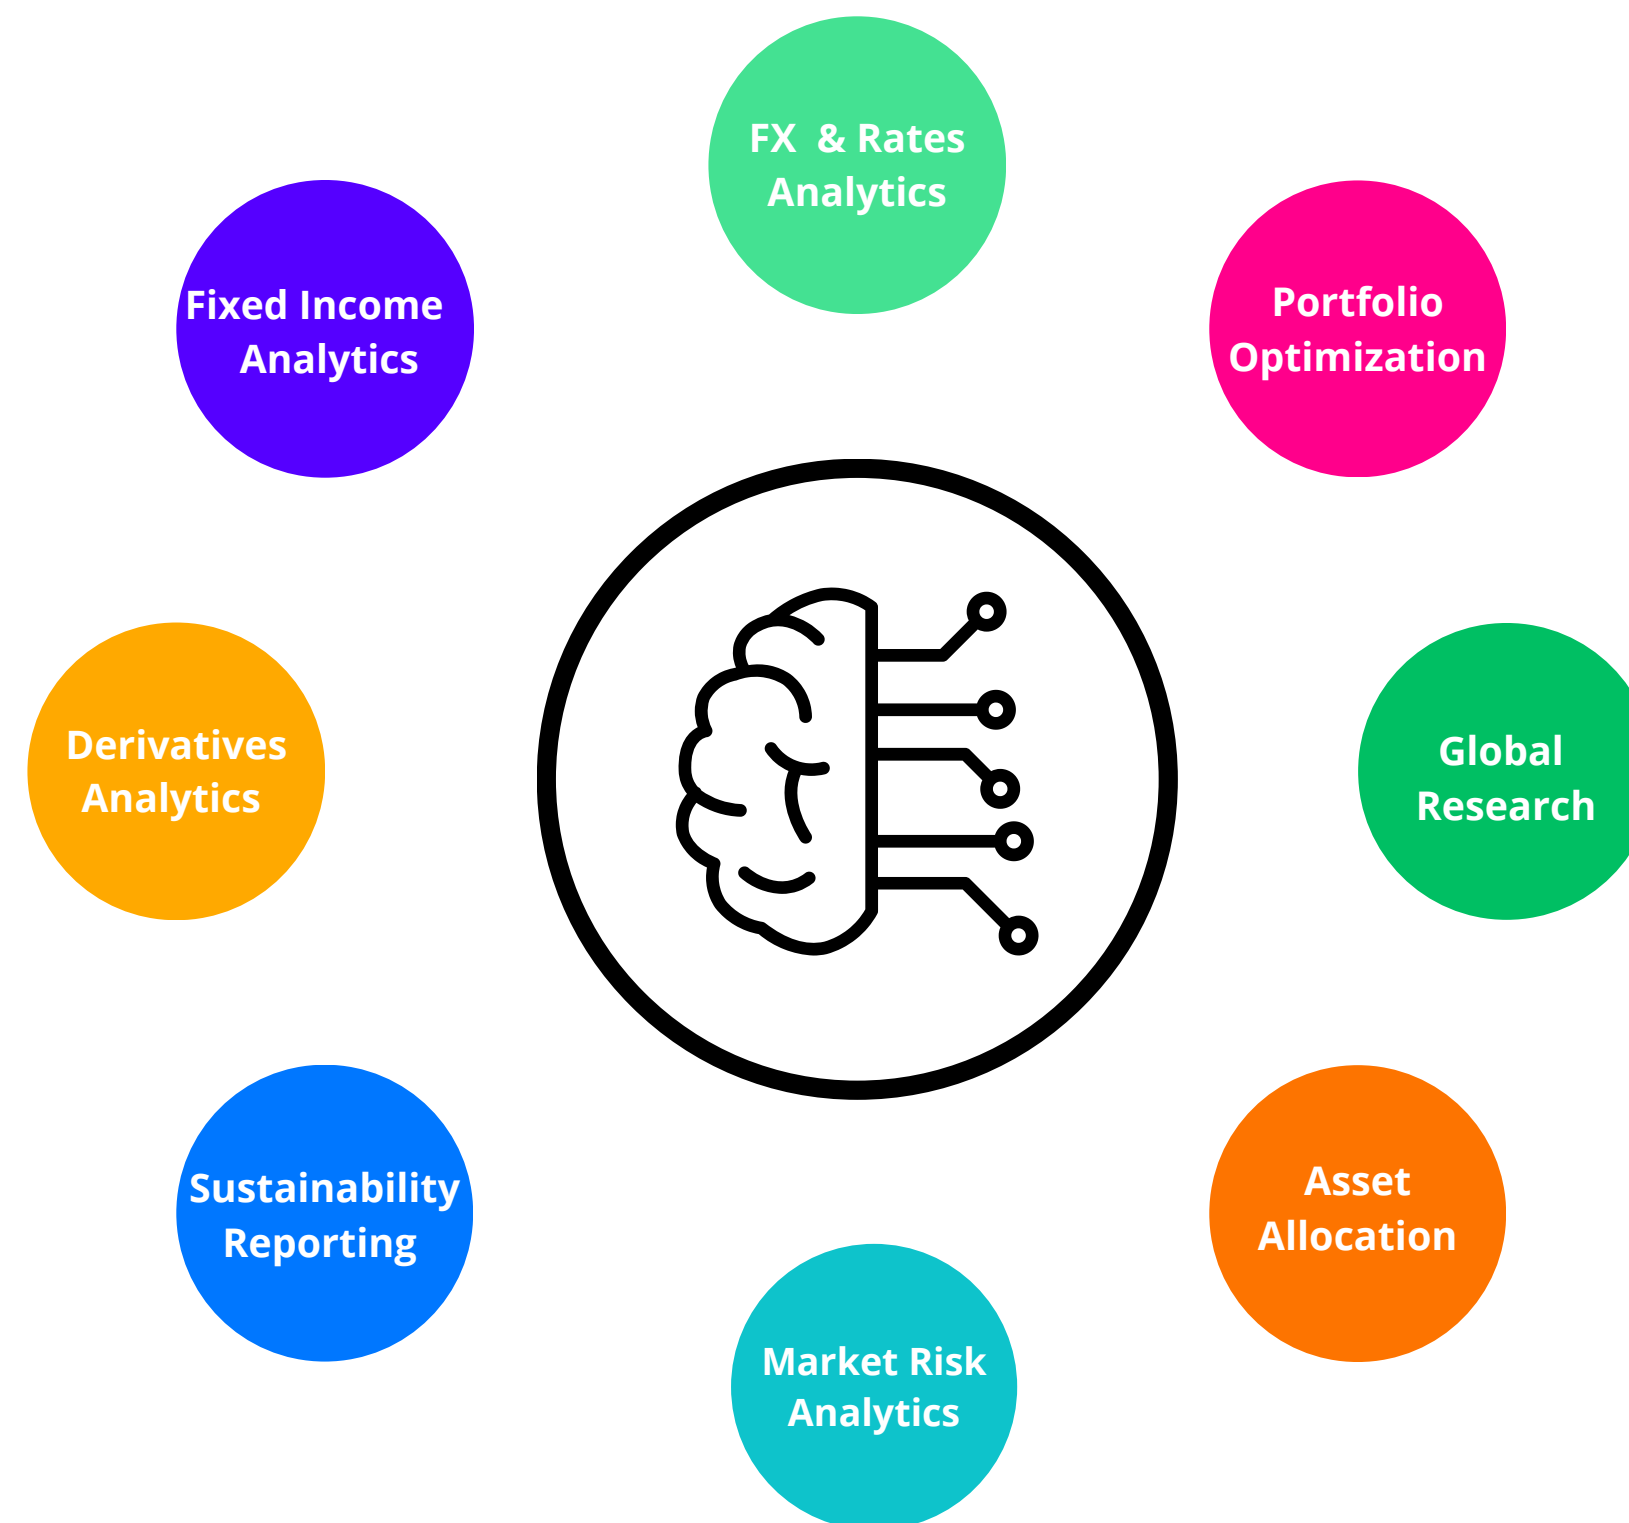

In order to help and improve decision-making and reduce the risk of miscommunication. Our software can offer collaboration and communication tools that allow users to work together more effectively.

Modular Risk & Asset Management Software

- ✓ INTERACTIVE AND USER-FRIENDLY INTERFACE
- ✓ INTEGRATION WITH API DATA SOURCES
- ✓ FLEXIBLE PRICING AND CONFIGURATION
- ✓ SUPPORT AND TROUBLESHOOTING MODULE

Our software help our clients to evaluate investment opportunities, optimize their portfolios, and migrate financial risks.

By leveraging **Advanced Analytics**
and **Quantitative Resources** capable
of producing better **Results** for:

- ✓ Banks, Insurance and Reinsurance Companies
- ✓ Corporate and Investment Banks (CIB)
- ✓ Trading Rooms and Asset Managers
- ✓ Sovereign, Hedge and Investment Funds
- ✓ Retirement and Provident Funds
- ✓ Central Banks and Securities Regulators
- ✓ Governments and Ministries of Finance
- ✓ Large and Multinational Companies

Key Features of our innovative Software

USER MANAGEMENT

Our software contains a good framework for managing users and permissions. Out of the box, our software does not apply any special restrictions to users. This feature allows you to define the actions that each user is allowed to perform.

AUTHENTICATION

Our software comes with an advanced user authentication system, automated password encryption and powerful cybersecurity middleware. It manages user accounts, groups, permissions and cookies.

ACHIEVEMENTS

As a pioneering Fintech, Capital Quant Agency is committed to driving positive change, fostering transparency as well as connectivity, and improving investment decision-making processes. These well-deserved awards are testament to Capital Quant Agency's relentless pursuit of excellence and its dedication to transforming the way we perceive and interact with capital and financial markets.
