# AS THE WORLD IS ACCELERATING,

# RISKS AND COMPLEXITY ARE ON THE RISE

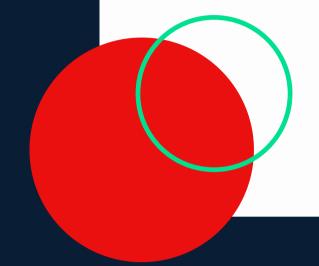

# "Information is the resolution of uncertainty"

In a complex and connected world, local disruptions can become global dynamics. Having access to a fast and accurate information is essential to make the right decisions. However, modern leaders are still facing:

- Information Overload > Too Much Noise
- Cold information > Too Late
- Multiple Sources > Time Consuming
- Partial > Biased Decisions

## Solutions

Connecting businesses with actionable intelligence

#### 1. Alpha

24/7 Early Signals & Real-Time Alerts

#### 2. Beta team

**On-Demand Intelligence Reports** 

#### 3. Omega network

**Expertise at your fingertip** 

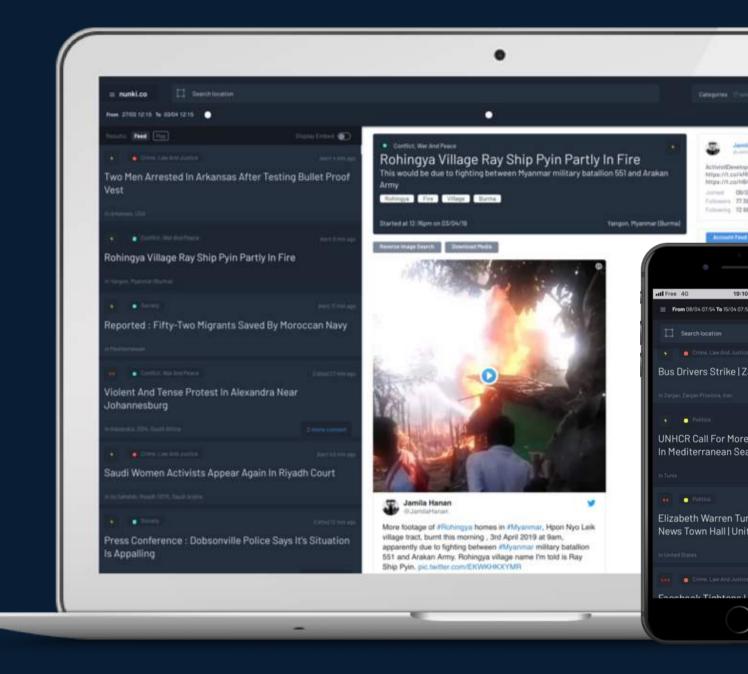

# 1. ALPHA 24/7 EARLY SIGNALS & REAL-TIME ALERTS

Using **Artificial Intelligence** and advanced Open Source Intelligence (**OSINT**) technics, we intercept **early signals** and **alert** your Organization about unpredictable events that can affect **your operations** in real-time.

## METHODOLOGY

#### 1. Diagnosis

An analyst is sent over your place to identify the events and sources you want to track.

#### 2. Data / Adjustment

If not already available, our Data Engineering team implements new sources in our system. Our Data Science team adjusts the right Al models to detect the relevant signals.

#### 3. Integration

Alpha's implementation in your information system.
